MEMOIRS OF JAMES GORDON BENNETT AND HIS TIMES.

BY A JOURNALIST.

In one rest volume, large duodecime, of five hundred pages, elegantly bound, with a finely engraved likeness of Mr. Bennett, from an original drawine. Price \$125.

This anniously expected book will be published early in the month of July. It is the history of a remarkable man one whose industry, talents and real character are but little known to the public, glthough his name is tamiliar to the world. There are few persons aware what an impottant history is comprised in his long and eventful carreer, and how fertile in topics it is for a hographer. The volume wit give a complete panoramic view of public eventein polition, commerce, society and newspaper literature for the past tarrty-five years.

and how fertile in topics it is for a biographer. The volume wil tive a complete panoramic view of public aventain politics; commerce, society and newspaper literature for the past terry five years.

The work is the result of many years of preparation by the author, who is acknowledged to be the only gouleman who is calculated by education, temper, resinement, industry, parisecs and habitual candor, to do justice to so difficult a subject. He is excelled by no writer in the beauty and force of his styl, in the classical parity of his expression, in the quest wit and adroit serosam of his illustrations, or in the method in which he blends the most minute details with the broad and glowing events of history. Added to this, he has been so close an observer of the subject upon which he has written—has had so extensive an experience with the public press—that he has produced a work that has all the charms of a romance associated with the clerated tone and sentiment of a grave and important history. No writer, in fine, seems to have understood better the true mode of preparing a valuable biography.

Such ja the opinion of every impartial person who has seen the pages of the above work, and it will be published with the tull assurance that readers of every condition of society will derive from the work pleasure, instruction, and a knewledge of the most remarkable and original character of great public importance ever connected with the history of journalism in this or any other country.

OR, REVALATIONS OF A LIFE.

An Autobiography. In one duodecime volume, neatly bound in cloth. Price \$1.

There are so many books published that are not books—that are merely apologies for books—that when a work of sterling excellence is munounced, the trade are naturally disinclined to believe in its merits. Especially in this age of books making is such the case. Each work that is published is puffed and pushed in nearly every instance seyond its worth till the booksellers and book readers have generally lost faith in the advertisements of publishers. Such, however, cannot be the case with "Mary Lyndon, or Revelations of a Life." It has been submitted to some of our best scholars and most accomplished literary men, who are unanimous in their opinion that few works of gester value have at any time been issued from the preas of this country. Certalally, within the last ten or twelve years, nothing more meriterious has been published.

The writer of this work, as is painfully and powerfully shown in almost every page, has lived, and loved, and suffered. The book is a transcript of undoubted experience. There is nothing artificial about it—nothing feigned. It tells the story of a woman's wrongs with a wail of passionate elementation that should make the blood cardie, while it are uses the soul into indignation. Undoubtedly it is the work of a woman one could have written it—and she is among the most intellectual of living writers.

The characters introduced in her work are fish and blood realities. We know most of them by reputation; some she mentions to the soul and the new of them still live. This her, or respectively have lived, and most of them still live. This him romance is destined to create a sensation not equalled by any other production since the apparance of "Hawthorne's Scarie Latter."
